## SUMMARY

Full Stack Developer with a passion for crafting digital solutions. I specialize in Back End Development, building scalable server-side solutions with NodeJS, ExpressJS, Laravel, and CodeIgniter. In Front End Development, I use ReactJS, ElectronJS, HTML, CSS, JavaScript, TailwindCSS, Bootstrap, Sass, and jQuery. My tech stack includes, Git, and GitHub. For front-end deployment, I use Vercel and GitHub Pages. I'm always seeking opportunities to enhance my expertise and contribute to innovative projects.
